BACKGROUND CONTEXT

Problem Statement : AI for Sustainability

2.1B

Tons of Annual Municipal Waste

Household recyclables discarded straight to landfills due to missing action plans.

Information Gap

Consumers lack immediate guidance on how to repurpose specific items on hand.

Generic Recycling Guides

Static search results present complex ideas without clear materials or safety lists.

FRICTION & AUDIENCE

Key Challenges & Targeted Users

Associated Problems

Safety Risks: Unclear rules when handling sharp metals or plastics.

High Onboarding Friction: Complex apps requiring passwords or API keys.

Execution Paralysis: Vague DIY instructions lacking time estimates.

Targeted Users

Eco-Conscious Households: Individuals cutting daily footprint.

Students & Educators: Seeking fast environmental projects.

DIY Hobbyists: People seeking functional upcycling ideas.

CORE VALUE

Solutions Implemented

Instant Material Analysis

Input any item phrase for immediate upcycling recommendations.

Structured Guides

Clear lists for tools, execution time, and step-by-step instructions.

Embedded Safety Protocol

Prominent safety warnings highlighted before crafting starts.

PLATFORM SHOWCASE

About Terrawatt.ai

Built-in Assistant

Zero-friction web experience requiring no API key or download.

Recycle Mode Interface

Interactive UI cards detailing project duration and materials.

Action Philosophy

"Small Actions. Bigger Change."

MARKET ANALYSIS

App vs. Terrawatt AI Comparison

Feature / Metric	Traditional Blogs & Apps	Terrawatt.ai
Input Method	Manual category browsing	**Direct material query**
Output Structure	Dense static articles	**Tailored action cards**
User Friction	App downloads / Accounts	**Zero setup required**
Safety Focus	Buried in article text	**Prominent safety warnings**

EVALUATION

Advantages & Limitations

Advantages

Zero Friction: Open browser and start immediately.

Structured Output: Material lists and time tags.

Safety Conscious: First-class alert callouts.

Limitations

DIY Focus: Excludes municipal pickup schedules.

Static Preview: Template image previews rather than live camera scan.

Thank You!

"Small Actions. Bigger Change."
